

Please continue to allow Voom HD to provide programming that I will be able to view in Virginia. VOOM's commitment & track record of providing HDTV, and VOOM HD LLC's desire to continue operating Rainbow-1 at the 61.5 frequencies. I would like to make mention of the FCC and their past rulings that sided on increased competition and consumer choices; this is clearly in the best interest of the public. We need more HD programming available to the consumer. We have purchased HD television sets that cannot provide the service it was designed to do. Thanks.
